---

Additional info: confirmed the vehicle has been rented to Dungan since 8/10/22 and shows to be rented out until 8/29/22. Also, Dungan had a previous associated address of 118 W Orange #D.

Good evening Nick,

Based on the CFS comments (inc#52484) on this 211, RP/wit (Martinez) described susp veh as a small whi Chevy SUV with the first digit of the susp veh license plate as a 9. I used Flock (see below Flock images) to develop a possible vehicle match and located a white Chevy Equinox CA/9BFY017 that was caught on LPR driving SB Western 4 minutes before the RP called PD.

This vehicle is registered to Ean Holdings and Officer Caro helped me to contact Enterprise where he was able to obtain the current renter's info - Ellejae Dungan (see CDL info below) who came back clear. An interesting find to note: I conducted a search from 07/01/22 to 8/16/22 to see if this vehicle pops up on the same Flock camera and the only time it was captured was on 08/12/22 at 2245 hrs indicating to me that this is not a common road or path for this vehicle to take. I did not confirm with Enterprise how long this vehicle has been rented to Dungan but her vehicle was vandalized pretty extensively in early June (22-5925) so my guess is that this rental is to take the place of her vehicle while it is being worked on. I was thinking of putting an ATI slide requesting to FI occupant(s) of this vehicle if it is located/stopped to see if we can develop further leads and wanted to make sure to let you know all of this before doing so as the slide will reference back to you since you were the primary officer.

Also, since I did not see any mention of the partial plate or veh description info in your narrative, can you please clarify if you were able to confirm with the RP regarding any further description on the susp veh such as tinted windows etc?

Thank you and be safe out there,
Jane
